Training Tips

1- During the first few weeks, help your child to get up and finish urinating in the
bathroom when the alarm sound or vibration--even if dreaming.
2- During the first few weeks, a parent should be present in the room with the
child whenever he or she anticipates the alarm and awakens before it sounds.  You and your child should keep a record of dry and wet nights
and the days and times your child awakens before the alarm.
3- To prevent a choking hazard, ensure the device or any of its associated components are not put in the mouth at any time.
4- If the user chooses to attach the alarm unit using a safety pin, choose a secure pin that does not come loose easily.  The manufacturer is not
responsible for any accidents that occur due to the use of an inappropriate pin.
5- Never apply a wet cloth or alcohol on the sensor with a dry cloth.  The alarm unit is not waterproof. Make sure the alarm unit is not rinsed or submerged in water or other liquids.
6- Using a night-light also helps a deep-sleeping child to respond to the alarm.  If there is special difficulty in waking to the alarm, turn on a
small desk lamp in the room after the child has fallen asleep.
7- Praise your child whenever you observe any kind of progress; for example, waking to the alarm or smaller accidents.  Profusely praise your
child and treat him or her to a special treat or toy.  Avoid any kind of criticism or sarcasm.
8- It is recommended that evening intake of foods and beverages should be avoided.  Children with nighttime wetting should avoid caffeine
and chocolate intake throughout the day.
9- Remember-good daytime bladder and bowel habits lead to nighttime dryness!!

Warranty

Wet-Stop® contains a one-year warranty against manufacturer's defects in materials and craftsmanship against breakage or failure under normal use. This warranty is non-transferable and is void if the product is altered in any manner. This warranty does NOT cover damage from misuse or abuse of the product. This warranty is void if the product is damaged during shipping or handling. This warranty excludes all incidental or consequential damages. This warranty is subject to the following terms and conditions:

1. The Wet-Stop® is warranted to the original consumer against defects in materials and craftsmanship for a period of one year from the date of purchase. If the product is found to be defective during this period, it will be repaired or replaced at the manufacturer’s option.
2. This warranty does not cover normal wear and tear or damage caused by misuse, abuse, or neglect.
3. This warranty is void if the product is altered in any manner or repaired by anyone other than the manufacturer.
